Title of the abstract in Times, bold, size 12

A. B. Sharma[1,*], C. D. Rao[2] and E. F. Khan[1]; [1]*Department, Institute, City-PIN;* [2]*Department, Institute, City-PIN*; *Email: author@institute.ac.in

The abstract states the problem, the method, the principal result and its significance, in about 200 words. It is set in Times, size 10, single-spaced and justified, and may run to more than one paragraph. The heading runs on as shown: the title, then the authors, their affiliations and the presenting author's email in one paragraph, with the presenting author marked *.

It is a brief statement of the work, so it carries no references, figures or tables. In the Book of Abstracts it is printed three to a page, just as you set it here, so please keep to about 200 words. You may use the same text as the abstract inside your paper, or write a different one, as you prefer.

Keywords: laser, plasma, spectroscopy
